FATE OF GERMANY WITH ALLIED COUNCIL

Lloyd George and Briand Agree Upon Invasion of Ruhr Valley

TO DECIDE SATURDAY

Future Action Depends Upon Terms Berlin Sends to Washington — Would Keep America Out

Hythe, England, April 25.—At the close of the conference of the French and British Premiers here early yesterday it was announced officially that Briand and Lloyd George were entirely agreed that the French plan of invading the Ruhr Valley must be put into operation if the German reparations offer, now expected by way of America, proves unsatisfactory.

The two Premiers, however, will withhold their final decision until the Supreme Allied Cuncil meeting that has been called for Saturday.

Premier Lloyd George discussed the situation with representatives of the press after the conferences had ended. It was understood that the Allies would send no invitation to the United States Government to take part in next Saturday's conference. The meeting will be in London, if the British coal miners' strike is on at that time, but otherwise it will be in Paris.

If the United States desires to have a delegate attend the Supreme Council meeting that is to decide Germany's fate the initiative must come from Washington. It is said that America undoubtedly would be welcome despite the fact the United States if not partly to the Treaty of Versailles.

The British Government is surprised that Germany should have sent her new offer to the United States. It is considered unfortunate in high British quarters that Germany did not at least forward a copy of her offer to the Allied Premiers while they were in conference here to discuss the reparations question.

The action of the Allies now depends upon the terms of the German proposals which are being made known to America. Although Lloyd George officially has promised his support to the French plan of invasion, if this is seen to be inevitable, it is reported that Briand also has given his word to the British Premier that military operations will be unloosed only if satisfaction is seen to be unattainable in any other way.

It is understood that the British prefer to send a small contingent of cavalry and possibly some tanks as indicative of their support rather than take some more spectacular action, such as the occupation of Hamburg. It is said authoritatively, however, that the details of British participation must await the consideration of the matter by the Cabinet. Lloyd George is to consult his advisers on the subject at the earliest opportunity.

Pending Saturday's meeting, the Allies are looking forward to word from America regarding the German proposals with the greatest interest. No one here knows whether the United States Government will merely transmit Germany's offer to the Allies or venture an opinion upon its acceptability. The French are reported to be urging that whether or not America expressed her opinion concerning the German offer, the Allis must consider the transmission thereof as implying America's responsibility for its contents. The Allies may make it clear that if they decide to accept less than they hope for they would do so on the assumption that the United States has reason to believe that Germany will carry out her promises and is prepared to compel her to do so.

The Allies also may advance the thesis if America transmit the German offer, that as the Washington Government forced Europe to accept only a small percentage of the total reparations that Germany can fairly be expected to pay Aemrica must be content with the repayment of only a small part of the Allied debts.

Both France and Great Britain would prefer that America keep outside of European questions unless she is willing to accept European guidance. They are particular anxious that America will not interfere with the occupation of the Ruhr and Lloyd George is being urged by an influential body of British opinion to keep the United States out of European affairs as a matter of general mod o mdom dm do dom d mdmf policy.

In these circumstances it is probable that an American note transmitting the German offer to the Allies would allow of greater immediate interest than the German proposals themselves.

KATHLEEN MAVOURNEEN

To Be Given Thursday And Friday at Lyceum Hall

The first effort of St. Mary's Junior Players will be presented to the public on Thursday and Friday evenings of this week when "Kathleen Mavourneen" will be produced at the Lyceum Hall.

The story, famous for over fifty years, is the story of Kathleen O'Connor, an Irish lassie who receives two proposals on St. Patrick's Eve. One from her father's landlord and one from Terence O'Moore, an ardent lover since their childhood days. Upon receiving the two proposals, one offering her riches and a title, the other offering all that true love can give from a poor peasant, she is so excited that she can not decide which to accept. In this state of perplexity she falls asleep and has a dream of warning, which brings her back to her senses; so that on St. Patrick's morning she is able to give both Bernard and Terence their answers.

Plans Submitted

Howell and Son Report on Water Works and Sewerage System for Arlington County

The firm of David J. Howell and Son, civil engineers, today submitted to the board of supervisors of Arlington county a report for the installation of a sewerage and water system in that county on which this firm has been engaged in working on for the past ten months.

Eleven drawings are submitted showing general features of water works system and a general description of each is given in the detail report.

With conditions as they now exist supply should preferably be obtained at Pimmit Run and Chain Bridge. Partial elimination of raw sewage now entering Potomac River between Acqueduct Bridge and Chain Bridge might upon careful investigation of Potomac River Supply, permit of this supply being taken as suitable for filtration from near entrance of Spout Run at head of Three Sisters.

The design is based on a separate system of sanitary sewers with a average flow for sewers of 50 gallons and a maximum flow of 100 gallons per capita per day and for ground water infiltration an average of 100 gallons per capita per day and a combined flow of sewage and ground water considered as equilavent to a maximum of 200 gallons per capita per day with size of sewers designed to flow one half full at above combined discharge. The county is divided into 13 sanitary districts with these main zones of sewage discharge and two future disposal plants, designated as Four Mile Run and Little River plants.

HARDING FACES NEW TEST ON TOLLS

Expected He Will Take Hand to End Ruction In Congress

BORAH'S BILL UP SOON

President Said to Favor Delay Pending Negotiations With Britain—Opponents Seek Subsidary

Washington, April 25.—Proposed legislation exempting American ships from the payment of Panama Canal tolls is destined to stir up a big ruction in Congress in which President Harding is expected to take a hand at an early date.

The Senate Committee on Inter-Oceanic Canals, of which Senator Borah is chairman, is scheduled to begin consideration this week of the Borah bill exempting American coast wise ships and of the Jones and Poindexter bills exempting all American ships from canal charges.

The Republican national platform last year for the first time declared for toll exemption for all American ships, but Senator Borah thinks that, in view of the opposition, it will be easier to put through a bill applying to coastwise ships only. Free tolls were indorsed in the Democratic platform of 1912, but repudiated in 1914 by President Wilson.

President Harding favors toll exemption, but has indicated that it should be achieved through a new understanding with Great Britain. Whether he will halt the proposed legislation pending negotiations with England or endeavor to adjust afterward any differences arising with Great Britain or other nations from the exemption remains to be seen.

Last year the canal earned $10,295,362 in tolls, of which $4,724,494 were paid by 1,281 American ships, $3,357,357 by 867 British ships, $583,643 by 122 Japanese ships and $411,422 by 111 Norwegian ships. A total of 2,814 vessels representing more than 15 nations passed through the canal.

The maintenance cost, including $900,000 for betterments, was $7,448,272 leaving a surplus of $2,847,090. Since the canal was opened the upkeep cost has been $36,000,000 and the aggregate tolls $34,000,000, but it is estimated that after July 1 next there will be a surplus of $5,000,000 a year at present toll rates with American ships paying tolls.

Of the 16,324,024 tons of all American shipping, 3,986,755 tons, or less than one-fourth, passed through the canal in 1920.

The opposition to toll exemption is based on a variety of contentions. It is asserted that it would be a violation of the treaty and that even if a new understanding with Great Britain were reached, the exemption would be a subsidy to the one-fourth part of American tonnage using the canal as well as a discrimination in favor of seaboard producing and shipping interests against competing interests in the Middle West which must depend on rail transportation.

It is contended that a new understanding with Great Britain can be reached only by making concessions valuable to England, and which will be tantamount to yielding in matters of vital consequence to the whole nation in order to procure a privilege of benefit to a fraction of American shipping and to seaboard interests.

American and Canadian ships now pass through the Canadian canals on equal terms, and by some it is feared that the proposed Panama discrimination in favor of American ships would lead to retaliation by Canada both in regard to the present canals and the contemplated St. Lawrence waterway.

VITAL ISSUES AWAIT ACTION BY CONGRESS

Peace, Tariff, Immigration and Farmers' Relief on Program

KNOX RESOLUTION

Disarmament and Appropriations Will Engage Houses Attention—Foreign Loan Also Up.

Washington, April 25.—The Knox peace resolution, Tariff, Immigration Agricultural Relief and Appropriation bills will be before Congress this week, the third of the extraordinary session.

The peace resolution, according to leaders' plans, is to be reported out tomorrow by the Foreign Relations Committee with the view of beginning debate Tuesday. Although Democratic opposition is regarded as assured, comparatively brief discussion is anticipated and its adoption within a week or 10 days by the Senate is expected by Republican leaders. A similar measure is to be introduced today in the House by Chairman Porter, of the Foreign Affairs Committee. Leaders have planned to hold up the Porter measure, however, until the Senate acts on the Knox resolution.

This week in the Senate also promises to witness progress of the Emergency Tariff and Immigration Exclusion bills. The former is to be reported out of the Finance Committee during the week under a schedule for debate after disposal of the peace resolution. Much tariff discussion is predicted by Democratic opponents, although Republican leaders have declared their intention to curtail debate by cloture if necessary.

The immigration bill, which passed the House last week, is to be received today by the Senate and taken up by the Immigration Committee Tuesday. Leaders plan to have it passed by the Senate and in President Harding's hands by the end of the week, probably with few changes as it came from the House.

Disarmament is to be taken up today by the House Foreign Affairs Committee in connection with resolutions designed to bring about an international disarmament conference. Secretary Hughes, of the State Department, heads a long list of Cabinet officials and others who are to be called in a few days during the committee's hearings.

The Army and Navy Appropriation bills, which failed during the last Congress, are to be pressed soon in the House. The latter will be brought up this week, possibly today, with the principal question at issue, the advisability of continuing the 1916 building program.

Agricultural relief measures are being prepared by both Senate and House Committees. The latter today is to take up the Capper-Tincher bill to restrict gambling in food stuffs. The Packer Control bill also is to be reported out this week, according to leaders' plans.

The Sheppard-Towner "better baby" bill is to be considered today by the Senate Education Committee, with favorale and prompt action planned without further hearings on the measure, which failed during the last Congress.

Foreign loans are to be considered today by the Senate Judiciary Committee. Digests of Treasury Department documents are to be taken up, but whether any more hearings will be held has not been determined.

Many nominations, including those of the Railway Labor Board and major and brigadier-generals nominated recently are to be disposed of this week by the Senate, with much interest manifested in the opposition from Democratic Senators to confirmation of Brig.-Gen. Clarence R. Edwards, former commander of the Twenty-sixht (New England National Guard Division, Overseas) as a major-general.

Senator La Follette is expected to deliver a lengthy address today on his resolution recently introduced in behalf of recognition of the "Irish republic."

Making the South Lily-White.

Republicans now in high places in the national organization of that party are credited with strong ambitions to "break the solid South." To this end plans are said to be under way which will put an end to the quadrennial fiasco by which the delegates of South ern Republicanism are delivered at Republican National Conventions like sheep at auction to the highest and shrewdest bidder. The memory of how the Southern Republicans were garnered into the Taft fold in 1912 and of how the ingenious Mr. Hitchcock again tried to garner them into the camp of Dr. Leonard Wood last year is all too fresh in the public memory for there not to be general rejoicing in anything that holds out any hope of reforming this sad business.

The simple expedient said to be under consideration by the Republican National Committee is first to permit hereafter no one to be a delegate to the Republican National Convention who is not a regular voter in the district he is to represent and secondly to permit no one to vote in the choosing of delegates who is not such a voter. Such a simple act of decency in politics that it seems almost incredible that even the Republican Party as barren of ideas as it is should not have thought of it sooner.

There is more back of this prospective move, however than just conforming to the ordinary conventions of politics as generally accepted throughout the country except in Southern Republican circles. If actually put into practice, it will serve to make the Republican Party in the South a lily-white organization, with what result, who knows? Whether divorcing the negro from it in the South will obliterate the party or make it a real one, only time can tell.

SEEK SWEETHEART OF MAN ARRESTED FOR WALL STREET BLAST

Scranton, Pa., April 25.—City detectives and members of the New York bomb squad conducted a search today for a mysterious young woman known only as "Betty," said to be the sweetheart of Tito Ligi, who has been identified by Thomas Smith, of New York, as one of the two men Smith saw standing beside the bomb wagon in Wall street last fall shortly before the explosion.

Detectives Martin, Brown and Gilroy went to Old Forge, where the government raided an I. W. W. meeting 3 years ago, and arrested three hundred Reds in the hunt for the girl. The sleuths also traveled to Wilkes Barre, twenty miles from here, looking for the girl. The detectives talked with numerous Italians, but they could ascertain nothing new from them concerning the trail of the girl on the night of her flight from this city shortly after the arrest of Ligi.

The abandoned mine in South Scranton where Ligi and a gang of anarchists are supposed to have held mysterious meetings and made bombs was given another examination today, but what the police found they would not say.

Ligi spent a quiet day at the county jail, according to the warden No visitors were allowed to talk with him. Detectives Sculley, of Chief Flynn's staff, is scheduled to come to Scranton Monday with more Federal witnesses to look at Ligi.

Friction here developed between agents of the Department of Justice and the city police because of the manner in which the local officials were "frozen out" yesterday when the government's witnesses were brought here.

Agent Ahearn and Detective Sculley went to the county jail and had the witness examine Ligi without informing Detective John Castuccello, who had arrested Lgi and who had gathered the evidence against him.

Attorney Walter Nelles, of New York, employed by hidden interests to defend Ligi, sent word here today that when the time comes he will produce twelve persons who will prove that Ligi was in Scranton on the day of the explosion.

SEEKS TO REMOVE JOY FROM HOPES OF WETS

Washington, April 25.—Wayne B. Wheeler, general counsel of the Anti-Saloon League, came forward this evening with large gobs of gloom in each hand for those wets who have been rejoicing in the Palmer opinion that beer may be sold for medicinal purposes and who have got the idea into their heads that "medicinal purposes" can be made to assuage a multitude of thirsts.

There is, or soon will be, nothing doing, according to Mr. Wheeler. In the first place, he maintains that beer for "medicinal purposes" would have to be sold by druggists, and that the druggists will not sell it. In the second place, he says there are only a few States where the local laws will permit the sale of beer as medicine, and the Senators and Representatives from the 38 states that do not allow such sales soon will attend to the national aspect of the matter.

"The druggists are determined to free themselves from the odium which would attach to their drug stores as beer joints," says Mr. Wheeler, who then proceeds to quote the executive committee and officers of the National Retail Druggists' Association as having gone on record as follows:

"The executive committee of the National Association of Retail Druggists of the United States desire to place on record their conviction that the manufacture and sale of beer and other malt liquors for medicinal purposes should not be permitted. Malt liquors have never been listed in the United States pharmacopoeia as official medicinal remedies."

And, says Mr. Wheeler, the Northern Ohio Druggists' Association not only has gone on record but has used advertising space in the newspapers to declare:

"We do not believe in beer as medicine. We do not believe in drug stores selling it, and never will. The profits on the sale of beer would not tempt the good druggists of this city to change their profession to that of saloon keeper."

SLEEPS FINE AT NIGHT, SHE SAYS

"Nobody Knows How I Suffered Before Taking Tanlac," Declares Mrs. Roberson

"Nobody knows how much I suffered before I tried Tanlac, and I do say it's the best medicine I ever saw or heard of," said Mrs. A. S. Roberson of 507 Thirteenth St., Lynchburg, Va.

"I was in a terribly run-down condition, nervous and weak, and for three months tortured nearly all the time with a throbbing headache. My appetite left me, and there were many days when I hardly touched a morsel of food.

"A night I would roll and toss by the hour and get up mornings feeling too tired and worn out for anything. No medicine seemed to reach my case, my strength and energy were slipping away and I had just about gotten to the point where I couldn't have stood it much longer.

"When I was racking my brains to know just where to turn for relief, my husband came home from a trip to Canton, Ohio, and told how people there were taking of the wonderful results that had followed the use of Tanlac. He got me a bottle and I began to eat better, sleep better and feel better almost from the first dose, and soon I was free from all my troubles. My appetite is splendid, I sleep fine at night, never have a headache and feel as well as I ever did in my life.

MOST LARGE CITIES IN EASTERN TIME ZONE TURN CLOCKS BACK

New York, April 25.—Daylight saving will be effective this summer in most of the large cities and industrial centers in the northern section of the eastern time zone, in the majority of the larger cities in the northeastern section of the central time zone, but, as far as reports are obtainable, will not be put into effect in the Southern or Western States.

In Connecticut, where a law was enacted this year prohibiting daylight saving by local ordinance, several communities are adopting "summer time" by common consent following referendum votes taken by boards of trade, manufacturers' associations and similar organizations.

Stock exchanges, banks and other financial institutions in the eastern zone will follow daylight time principally because New York City has adopted such a plan. Railroads will run on standard time, making changes in train schedules for the beenfit of commuters to cities having daylight time.

IN MEMORIAM

In loving remembrance of our dear daughter and niece, HAZEL MAY LANDON, who passed away three months ago today, January 25, 1921.

Oh, what would we give just to gaze
on her face,
And have her once more fill the one
vacant place,
But God thought it best and He
whispered, 'Come home;'
She is now with the angels, surrounding the throne,
Although she has left us and we see
her no more,
We are hoping to meet on a far
better shore.
By her Mama and Papa.

The midnight stars are gleaming
Upon her silent grave,
The one we loved so dearly
And tried so hard to save.
She is gone, but not forgotten,
Never shall her memory fade,
Sweet thoughts shall always linger
Around the spot where she is laid.
By her Aunt Annie.

She is not dead, but sleeping;
O what a comfort to know,
That she whom we loved so fondly
Has passed from all sorrows below.
The word farewell is hard to say,
To one whose life we love,
But we are climbing each day
And trying to meet thee
In that sweet mansion above.
98-1p. By her Aunt Hazel.

BOYS, HANDCUFFED, ESCAPE FROM TRAIN

Petersburg, Va., April 25.—Hand cuffed together, en route to the State Reformatory, near Richmond, two youths, Clarence Elkins, aged 17, and John Chapman, aged 15, jumped from a Norfolk and Western train as it was pulling into the Petersburg station today, and escaped into the woods between Hopewell and Petersburg.

The boys were in charge of Ex-Mayor J. W. Bauswell, of Lebanon, Russell County, who, having business in Richmond, consented to take the boys with him.

As the train slowed up for the station, the conductor told Mr. Buswell to take his prisoners into the front car. Mr. Bauswell walked forward telling the boys to follow him. When he reached the front car and turned around, the boys had disappeared. Looking out of the car, the boys were seen running down the track.

The prisoners soon outdistanced their pursuers, notwithstanding being linked together. Hunger is expected to bring them out of the woods in a short time, however.

Bryant, his wife and baby were found by a Salvation Army worker after spending two days penniless and without food in the railway terminal. Lodging was provided for them until work was obtained for the man on a farm near New Brunswick, N. J., where they were taken into custody today.

Red-Blooded Men and Women Get Things Done. Rich Blood Means Vitality

Thin Blood Makes You Lazy

Strengthen and Build up Your Blood With Pepto-Mangan

Men and women who are on the road to big success are not lagging on the way. They are bright and cheerful because their systems are fed with rich, red blood.

Weak blood, thin and sluggish, will never get you anywhere. You would be surprised how many people are just drifting along half alive. They never want to do anything—never get anywhere—all because their blood is in bad condition.

The sensible thing to do is to keep the blood pure and full of red corpuscles. Pepto-Mangan will do that for you the way it has for millions of men and women in the past thirty years. Notice the difference after your blood gets plenty of red corpuscles in it. See how you'll pop out of bed early, refreshed and ready to do big things.

But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the name is on the package. If you prefer tablets, take them. If not, ask for the liquid. Both have the same medicinal value.

Gunman Loses Chance to Cheat His Executioner

Chicago, April 25.—"Gene" Geary, gunman and murderer, sentenced to the gallows for the murder of a Greek in a South Side saloon, tried to forestall the noose yesterday by committing suicide and failed. The gunman lost his nerve at the critical moment.

The whisper had traveled about recently: "Geary will never die on the gallows." There have been hints of "poison packages," to be smuggled in to him. There were rumors of a last-minute suicide. A plan had been formulated it is said, for Geary to kill himself by poison—cyanide of potassium. The murderer was to get his cell bedding on fire and in the resultant confusion take the poison.

Shortly after noon today Geary attempted to carry out the program. With matches smuggled to his cell somehow, he "touched off" the blankets and mattresses. Guards saw the smoke and ran to the cell.

Geary, who for weeks has been simulating insanity, was found crouching in a corner, mumbling unintelligibly. In one hand he clutched a tiny package of potassium.

He lacked the nerve to take it.

Belgian Queen Casts Vote

Brussels, April 25.—Perhaps for the first time in history a Queen today voted in the municipal elecitons, when Queen Elizabeth of Belgium cast her ballot.

Five women were before her. When an election official rushed forward to insist that she vote immediately, she refused, waiting her turn before puting her ballot in the box. When she emerged from the booth she was embraced by a number of sister voters, after which she entered her car and drove off.

SPORTS

DREADNAUGHTS WIN

In a game that showed all the marks of big league ball, the Dreadnaughts battled with the Linworths of Southwest Washington, and copped the long end of the score 10 to 3. The slants of Crump and Jones, losers of Southwest fame, were intercepted sixteen times and 10 runs were earned in the usual period of the game. Alexander, the premier pitcher of the "D's" was in form, allowing but four clean hits and disposing of 11 batters by the strike out route.

Each of the Dreadnaughts connected for a couple of hits and the heavy slugging of Devers, Ludlow and Dawson, and the base running of Dreifus, featured the game and rolled up the big lead the locals held all through the fray.

Hayden tried in the final raps and flew out to left field. "Chief" and Degman both played good ball and Giles filled the gap at short in a fashion creditable to one practicing in another position. "Pete" Brenner's presence on the playing field put pep in the old game, and his strategy will undoubtedly be a factor in bracing the Dreadnaughts until they are fully organized. In spite of "Babe Ruth's" show in Washington, the "D's" had over a thousand fans to cheer them on in the struggle, and all left highly pleased with the improvement in the locals teamwork.

The "D's" expect to explode several bombs in amateur baseball soon, as they are expecting games with champions of New Jersey and Pennsylvania, so keep a keen eye on the papers, and don't miss any of the games. If it's entertainment, you are looking for, your support is all that is asked, the Dreadnaughts guarantee you a winning team.

The Destroyer A. C., opened their season yesterday with a victory over the Dividing A. C., by a close score of 9 to 8. Each team kept scoring and tying it up all the way until the last of the ninth they they had the local boys on by a score of 8 to 7.

Heflin at the bat knocked one for a third bagger, Snellings next got a double drive, Heflin in. Wood got up and landed on the apple and Snellings scored the winning run. The whole team played air tight ball. Next Saturday the dash with the fast Commerce Juniors on the Alexandria High School grounds at 3 p. m., sharp.

All members are requested to report for practice this evening at 5:30 p. m.

Reward

Do you know this man?

Height: 6 ft. 1 inch Face: Thin
Weight: 145 lbs. Features: Prominent

Description: When last seen was on his way to hospital. Used to weigh 180, had ruddy complexion, good appetite and enthusiasm for work. Six months ago began to have irregular bowel movements. Took pills. Lost weight—still irregular. Took salts—violent results. Had medical examination: doctor diagnosed case as self-poisoning, due to clogged, decaying food waste in large intestine; said pills and purges had weakened the intestinal muscles so they would not function. Man protested violently that he was not sick. Doctor replied that he had been sick since first bowel irregularity. Prescribed complete rest and the Nujol treatment. Said if he had cultivated regular habits with Nujol he would have had no trouble.

Reward: For restoration of this man to regularity: Nature offers reward of health, and return to normal weight and keenness.

If you are the man apply at the nearest druggists for one bottle of

Nujol *For Constipation*

Nujol works on an entirely new principle.

Instead of forcing or irritating the system, *it simply softens the food waste.* This enables the many tiny muscles in the walls of the intestines, contracting and expanding in their normal way, to squeeze the food waste along so that it passes naturally out of the system.

Nujol thus prevents constipation from coming, helps Nature maintain easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world.

Nujol is absolutely harmless and pleasant to take. Try it

Nujol is sold by all druggists in sealed bottles only, bearing Nujol Trade Mark. Write Nujol Laboratories, Standard Oil Co., (New Jersey) 50 Broadway, New York, for booklet "Thirty Feet of Danger".

G. M. Oyster Dead at Resort; Young Wife in Washington

Atlantic City, N. J., April 25.—Geo. M. Oyster, Jr., 72 years old, of Washington, whose marriage on last January 15 to Miss Cecil Ready, 20 years old, of Syracuse, N. Y., attracted much attention, died last night in his apartment in the Hotel Amoassador here.

He had come to Atlantic City for his health from his home in Washington two weeks ago, accompanied by physicians and two nurses, but he had been sinking steadily since his arrival at the resort.

With Mr. Oyster when he died were his physician and his business manager, Henry N. Brawner. His brother D. W. Oyster, hurried from Washington to Atlantic City when he received word that Mr Oyster was seriously ill, but he arrived too late. His brother died as he was walking along the corridor to the apartment. It was reported here last night that Mr. Oyster had died intestate, but this could not be confirmed, as neither his brother nor his business manager would make a statement.

Mrs. Oyster was not with her husband when he died. It was learned, however, that n hour before his death she telephoned to his apartment from Washington and inquired about his condition, saying that she had just learned that he was seriously ill.

The nurse, according to statements made at the hotel, told Mrs. Oyster that her husband was too ill to see any one, and Mrs. Oyster replied that she would come to Atlantic City today. For several weeks the report has been current both in Washington and Syracuse that Mrs. Oyster and her husband were not on good terms.

Believe Pair Died From "Moonshine"

Chicago, April 25.—The bodies of W. D. Bodman, an official of the Columbia National Life Insurance Company, and one of an unidentified maid were found by police here late Sunday in the man's gunaglow. Bodman's body lay partly on a bed and that of the maid on the floor. Empty bottles and one containing wine, were about the room.

Evidence tended to show that Bodman had been taken ill and that the maid, who had only worked in the home for a few days, had attempted to aid him, but had herself been overcome. Bodman lived alone, neighbors testified, but occasionally hired a maid to clean his bungalow.

TRAIN WRECKS STATION, ONLY ONE PERSON HURT

Corning, N. Y., April 25.—The railway station at Erwin, N. Y., a short distance from here was completely demolished early yesterday when a fast Erie Railroad passenger train from Cleveland to New York crashed through it. Only one man, John J. Delaney, a baggageman, of Buffalo, was injured.

A spreading rail is believed to have caused the wreck, which ditched six cars containing 75 passengers.

After tearing through the station the cars piled themselves against an embankment, all standin upright. This was believed to have prevented loss of life and serious injury. The train was said to be running more than sixty miles an hour at the time.

New York Police Seize Liquor Valued at $10,000

New York, April 25.—Liquor valued at more than $10,000 was seized in two raids made yesterday by the police enforcing the new State dry law.

In one raid the man alleged to have stored the liquor is accused also of bribery by the detectives who arrested him. The other person arrested was a woman, the keeper of a roominghouse.

The Fairness of William Penn— and "The Velvet Kind"

SATISFACTION was the policy on which William Penn traded with the Indians for the lands that are now Pennsylvania, hence the colonists of Penn's land enjoyed tranquillity and peace for ever after. Satisfaction has ever been the *only* ground on which commerce and service can grow and prosper.

To have *our* products meet with *your* satisfaction has been the ideal uppermost in our business conscience, and this ever present desire to serve you a better, more delicious Ice Cream was the incentive that fathered our chemists' efforts, resulting in the recent discovery, *our new formula.*

By this formula and method (Patents applied for to protect our process), we are enabled to offer you the most delicious and nutritious pure Ice Cream ever made.

We do NOT use gelatin, gums, starch, fillers, imitation flavors or foreign substitutes for cream—

But We DO use pure cream, pure milk, pure cane sugar and genuine flavors in "The Velvet Kind" of our creation.

With our ambition to serve you a *superior* Ice Cream now realized, we feel a justifiable pride in presenting—

The New "Cream of Ice Creams"

"The Velvet Kind"
